Organization: SWA

0% of brain tissue has exceeded CSDM15

(Cumulative Strain Damage Measure is the volume of tissue that experiences tensile strains over 15%)

Maximum CSDM15 in Each Brain Region

BRAIN REGIONS	0-7.5	7.5-15	15-25	25-30	30-50	NOTES
Frontal Lobe	▲					
Parietal Lobe	▲					
Occipital Lobe	▲					
Temporal Lobe	▲					
Cerebellum	▲					
Motor Sensor Cortex	▲

EXAMPLE OVERVIEW, NOT FOR CLINICAL USE

WARNINGS

-  Brain simulations are estimates based on material properties published in peer-reviewed literature.
-  The locations of injury cannot be guaranteed.
-  Functional impairments are based on current knowledge from peer-reviewed literature.
